

B-wire Crimp Connectors

For discrete wire splicing of solid and stranded copper wire, nothing beats the economy and simplicity of the B-wire connector from Cynwyd. Over two hundred million connectors have been produced and successfully deployed by our customers.

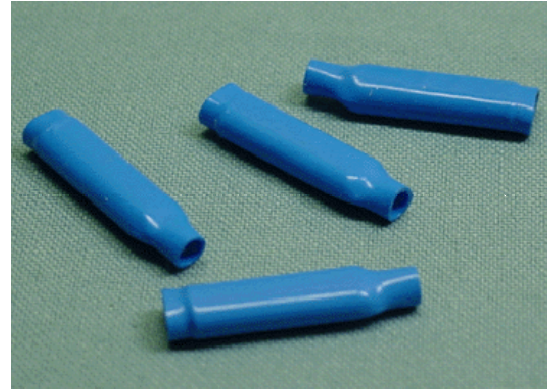

Cynwyd carries both dry and gel-filled b-wire connectors, in a variety of convenient packages.

Proven reliability

Over 50 years of service in billions of telecom and security applications around the world have proven the reliability of the B-wire. Cynwyd B-wire connectors are approved and used by several of the top ten security installers in the United States.

Proven features / benefits

- **approved for UL-listed installations**
- Support for solid and stranded wire
- Slim profile / reduced splice bundle
- 60 piercing tines for a low-resistance connection
- Full wire range (19-26 AWG)
- Moisture/corrosion resistance

Specifications

Cynwyd B-wire connectors feature premium materials, assuring long-term performance under varying climactic conditions. Different wire sizes may be intermixed on connections.

- Spring tempered phosphor-bronze connector element – for long-term connection strength
- Nickel plated for additional corrosion resistance
- Silicone gel for moisture / corrosion resistance
